

SAFETY & CLEANING GUIDELINES

- All rooms private
- Maximum group size is 8
- Only one group allowed in common areas at a time
- No walk-ins allowed
- Entire facility cleaned after each group leaves
- Staff will wear masks and monitored for fever or illness

Escape rooms are the perfect getaway for small groups needing to have some fun. Because our rooms are always private, you never have to worry about playing with strangers and we limit the number of guests in the room to 8. This limitation allows you to meet local guidelines for social gatherings. Our staff will be monitored for fever or other symptoms and wear masks. After a group leaves our facility, everything will be disinfected and cleaned. This includes all door handles, surfaces, chairs, locks, bathrooms and anything else that could have been touched. We are allowing an hour in between each booking for thorough cleaning of the escape rooms. We will also be disabling our water fountains during this time but water bottles will be made available to any guests needing a drink.

Lastly, if you have any special requests or concerns, please give us a call at 832-438-8191 and we are more than happy to answer questions and make your experience fun and safe!
